# Chapter 1

## DOLFINx C++ interface documentation

The C++ API documentation is generated from the source code using [Doxygen](#), and the Doxygen output is curated and rendered using reStructured text with [Sphinx](#) and [Breathe](#).

### 1.1 Requirements

- [Doxygen](#)
- [Sphinx](#)
- [Breathe](#)

### 1.2 Building

```
> doxygen Doxyfile  
> make html
```

Sphinx/Breathe documentation is in `build/html` and the Doxygen generated HTML is in `html/`.
